EDUCATION

ESAIP, School of Engineering *(Angers - France)* *Sep 2022 – Mar 2026*
Engineering Degree in Risk Management and Environment – Specialization: Industrial and Natural Risk Management

University of Castilla-La Mancha *(Toledo - Spain)* *Sep 2024 – Jan 2025*
Erasmus Programme – Faculty of Environmental Sciences

Technical University of Liberec *(Liberec - Czech Republic)* *Feb 2023 – Jun 2023*
Erasmus Programme – Faculty of Mechanical, Electronic and Environmental Engineering

PROFESSIONAL EXPERIENCE

Global Health, Safety and Wellbeing – Apprenticeship *Paris - France*
Danone Group *Sep 2026 – Sep 2027*

- Support Global Safety Initiatives by coordinating with local teams and ensuring effective deployment across sites.
- Deploy and coordinate global Safety e-learning programs and contribute to the worldwide Safety training plan.
- Monitor, analyze and consolidate Safety KPIs through Sphera for global reporting and standards compliance.
- Help coordinate the Worldwide Safety Community, sharing Safety best practices across international teams.
- Manage and maintain the Safety Document Management System, ensuring accuracy, consistency and accessibility.

QEHS Engineer – Internship *Paris - France*
L'Oréal Group *Sep 2025 – Feb 2026*

- Implemented and monitored corrective actions on weighing processes and utility water management.
- Drove continuous improvement in weighing areas, including ORP process standardization and workflow optimization.
- Audited and optimized equipment cleaning protocols to improve operational efficiency and quality standards.
- Delivered training sessions and promoted a strong Quality and Safety culture among production teams.
- Established validation documentation for the installation of raw materials and utility water systems.

Safety and Environmental Engineer – Internship *Valence - France*
Crouzet *Jun 2024 – Aug 2024*

- Developed the Environmental Aspects Assessment, prioritizing Significant Environmental Aspects (SEAs).
- Assessed air, water, soil, waste, energy and noise impacts, in line with operational and regulatory changes.
- Monitored SEA action plans and contributed to continuous improvement of the Environmental Management System.
- Took part in HSE risk prevention: production line audits, safety talks, near-miss investigations, chemical management.
- Created and maintained HSE documentation: procedures, work instructions, training and regulatory materials.

Industrial Risk Engineer – Internship *Longué-Jumelles - France*
ADM *Jan 2024 – May 2024*

- Established Lockout/Tagout (LOTO) procedures for electrical, mechanical, pneumatic, hydraulic, thermal equipment.
- Standardized LOTO documentation, identifying equipment-specific energy sources and residual energy hazards.
- Trained production and maintenance personnel on machine safety and the effective application of LOTO procedures.

EXTRA-ACADEMIC ACTIVITIES

Volunteer – Mathematics Tutor *Angers - France*
Secours Catholique *Jan 2024 – Jul 2024*

LANGUAGES & SKILLS

Skills – Aptitudes: HSE, QHSE, risk analysis, DUERP (occupational risk assessment), FMEA, cause tree analysis, 8D, 5M, 5S, PDCA, LOTO (Lockout/Tagout), ergonomics, ICPE environmental regulation, carbon footprint assessment, project management / autonomy, dynamism, discipline, rigor.

Standards: ISO 9001, 14001, 45001, 50001, 22716.

Languages: French (C1), English (B2), Spanish (A2).

IT: Sphera.

Interests: environment, fashion, music, football, travel and discovery.
